# Is your business

These are busy days. Business is in a state of flux. Conditions are changing. America is reconstructing her industrial fabric.

One thing is certain. The greatest era of prosperity the country has ever known is in the making. The greatest rewards will come to men who put their business house in order-now. An important part of any business is its filing system.

You know whether or not yours is adequate. You know, perhaps from experience, whether it fails to deliver in emergencies.

There is no truth in the old thought that a filing system must slip up occasionally. Filing can be made an exact science. Mistakes can be eliminated. 100% accuracy is possible. Forty-three years experience means something. It means

the difference between knowing-how and guessing. It means-efficiency! All that the past has taught is at your service in the present period of reconstruction. Your telephone will put you in touch with the world's largest manufacturer of card record and filing systems-the originator of the card index
